(719) 306-2884

Colorado Springs Utilities will be continuing the Gas Main Renewal Project and begin construction on Prospect Place, starting Monday (8/17).

MANITOU SPRINGS CO – Colorado Springs Utilities will be continuing the Gas Main Renewal Project and begin construction on Prospect Place, starting Monday (8/17). Due to the narrow nature of the road, this gas line replacement will result in a road closure on Prospect Place. The construction will be completed in 100-foot sections at a time.

We are asking our residents to not park on Prospect Place during the construction period. Additionally, no thru traffic will be permitted, but residents who live in the affected area will be able to park in their driveways as long as the current 100-foot section of installation is not directly in front of their home's access. Colorado Springs Utilities will be contacting all affected residents to ensure they are aware of this process. Thank you for your understanding!
