Public Works Offering Free Sandbags to Manitou Springs Residents

MANITOU SPRINGS CO – Team Rubicon visited our Public Works facility earlier this month and filled sandbags, which are now available and FREE for our community! These are a great mitigation resource to have in case of a flooding emergency.

The pile of sandbags is located in front of the gate at 101 Banks Place, and will be restocked when needed. We ask that our community is considerate of their neighbors and only takes what they need.
