## Rock and Erosion Removal Operation on Sunshine Trail on May 30 – Traffic Impacts Expected

MANITOU SPRINGS CO – With the heavy rains we have been experiencing, rocks and dirt buildup alongside of Sunshine Trail has increased. Our Public Works department will be performing removal of the erosion and rocks on Sunshine Trail on Tuesday, May 30 from 7 a.m. – 5 p.m. During this period, no traffic will be permitted to travel uphill on Sunshine Trail from its intersection with Washington Ave. to US-24. Therefore, only vehicles exiting from US-24 will use this section of roadway.

Please drive carefully through the area during construction, as crews will be working in the street. We appreciate your understanding while we clean-up the roadway!
